Near the car

Run for miles.

A few good men

Do it often.

In the country

It's time to eat.

It seemed too good.

A second later

Below the water

Talk to my father.

It's hard to open.

Sing your song.

Keep it up.

My family

In the beginning

A very important person

The light in your eyes

Watch the game.

We got together

So far so good.

We saw the food.

The dark night

It's my life.

A few children

We started the fire.

Watch the river.

He started to cry.

Under the earth

I like being on the team.

Both children

Leave it to me.

The big city

The first day of school

Read the paper.

Stay a while.

A good thought

My own father

Is it really true?

You might be right.

Until the end

Read every story.

Near the sea

Next time

Read your book.

Will it last?

The long list

For example

I miss you.

Light the fire.

Above the clouds

A group of friends

I took the car.

Without a care

Something good

My feet hurt.

Plant the trees.

Next to me

Those other people

It began to grow.

In my head

A group of Indians

We left it here.

Too soon

Close the door.

An important idea

Always be kind.

Almost enough

It never happened.

Between the lines

Once upon a time

Don't open the door.

We walked four miles.

Add it up.

Let me carry it.

Along the way

Stop the music.

Plants and flowers

The young face

State your case.

I cut myself.

On my side

The peaceful Indians

The young girl

The tall mountains

A good life

White clouds

I hear the sea.

I hear the waves.

Almost four miles
